Title: JEFFREY KRETZER;  
INNOCENT IMAGES;  
ITOM-SEOC

Synopsis: To provide subscriber information identified during the course of investigation.

Enclosure(s): For Cleveland: one (1) FD-340 (1A) envelope containing IP address information, the images downloaded from the AMY1979 F-Serve, and subscriber information identified from the Internet Service Provider.

Details: The Pittsburgh Division and the Pennsylvania State Police (PSP) are jointly investigating File Servers (F-Serves) dedicated to distributing images involving the Sexual Exploitation of Children. On 09/10/2004, PSP Trooper Robert Erdely provided the results of an EnCase forensic exam conducted on several hard disks recovered during the search of the residence of Subject Kretzer, located at 10581 Old Babcock Boulevard, Gibsonia, Pennsylvania (PA).

Included in the results of the forensic exam were the General Investigation Report, and approximately sixty-three (63) folders containing IP address information and associated images for users who uploaded and downloaded images to/from Jeffrey Kretzer's F-Serve, identified as the AMY1979 F-Serve.

In an effort to identify the subscribers of several IP addresses found in the file transfer logs on the AMY1979 F-Serve belonging to Kretzer, Administrative Subpoena requests were sent to various Internet Service Providers (ISPs). Pursuant to these requests, Pittsburgh determined that the following subscriber resides in Cleveland's territory:
